

IEK IIOT PLATFORM

**THE MODERN TECHNOLOGIES
FOR INDUSTRIAL PROCESS AUTOMATION**

2026

IEK IIOT PLATFORM

Scalable NO-Code software to monitor, control and predictively analyze infrastructure facilities, engineering systems and manufacturing equipment

IEK IIoT PLATFORM

➤ Scalable no-code system not requiring it resources for deployment and maintenance

➤ All production data in one window + perfect tool for communication with personal

➤ SaaS BUSINESS MODEL AND CLOUD BASED OPTION

➤ CALCULATION OF overall equip efficiency OEE

➤ Improving energy efficiency and balancing grid load

➤ Easy production planning and rampup

➤ Enables predictive maintenances and lowers downtime and equipment failures

➤ Control of equipment usage and consumables consumption.

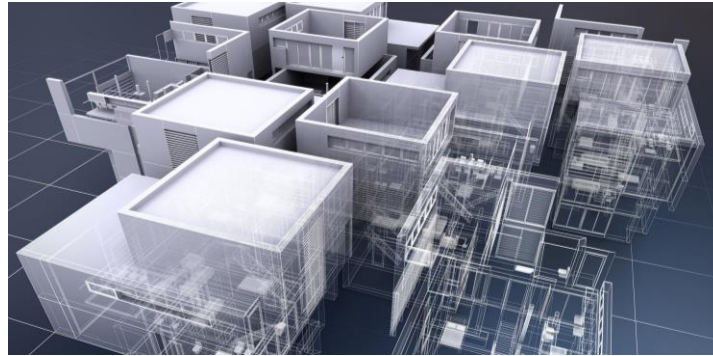

➤ USE CASES – monitoring - energy generator, LV switchgear, retail shops - reduction of power consumption, expensive consumables control

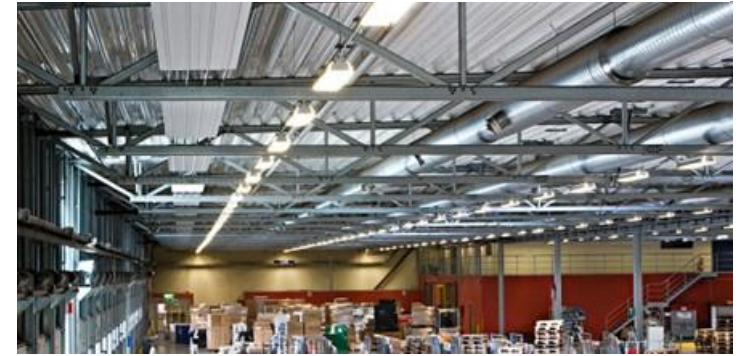

SOFTWARE PRODUCT ECOSYSTEM

- MasterSCADA 4D
- MasterSCADA 4D (WEB)
- MasterOPC
- MasterPLC

- MasterBMS
- MasterCAD
- MasterDigitalTwin

- IEK ERM
(ЭнергоМенеджмент)
- IEK IIoT Platfom
- AIM IQLink

IEK DIGITAL TEAM

- SOFTWARE DEVELOPERS
- ANALYSTS
- TESTERS
- SYSTEM ARCHITECTS
- TECHNICAL SUPPORT ENGINEERS
- ENGINEERS FROM VARIOUS INDUSTRIES
- SALES & PRE-SALE

In total 170 specialists

THANK YOU FOR YOUR ATTENTION
